If your assistant put on a great rubber dam for you prior to restorative procedures; would you use rubber dam all the time?"

This 8-hour course answers that question. It combines the theory and hands-on practical experience of Rubber Dam Techniques with Dr. Victor D. Guerrero.

“Absolute Isolation!” is designed not only as a refresher in the use of rubber dam but also to allow skilled clinicians to take their isolation to the next level prior to:

1. Operative dental procedures.
2. Preparations for crown and bridge.
3. Treating sub-gingival decay.
4. Seating of restorations.
5. Intra-oral porcelain repair.

Emphasis will be given to training of staff. Focus will be given to the use of different types of dam and advanced techniques such as customization of clamps.

**Educational Objectives:**
1. Isolation for restorative techniques.
2. Ability to recognize appropriate instruments and materials for any given case.
3. Ability to recognize and customize the clamps for any given case.
4. Criteria in the selection of different types of dam.

**Additional Information:**
The course is recommended for operative dentists and their assistants. From adhesive direct/indirect procedures to traditional gold inlays/onlays: rubber dam isolation improves your dentistry!

Full refund minus $75.00 handling fee with up to 48 hours’ notice prior to course date.
Course Instructor:

Victor D. Guerrero received his dental degree from Main National University of San Marcos in 1996, MSD and diplomate certificates in Prosthodontics from University of San Juan Bautista and a Diplomate Certificate from University Cientifica del Sur in Implantology. Member of the Peruvian Society of Dental and Maxillofacial Prosthodontics, as well as a fellow of the Academy of R.V. Tucker Study Club #62.

After completion of his specialization training Dr. Guerrero became a professor at the Prosthodontics & Aesthetics Postgrad Program at University of San Juan Bautista.

He is currently a lecturer in Dental Isolation and different clinical procedures in Prosthodontics in many Dental Schools and training centers in Peru and many other countries.

Dr. Guerrero has an active private practice in Lima, Peru, with major areas of focus on prosthodontics, implant surgery and periodontal prosthodontics. He performs both surgical and prosthodontic procedures and keeps an excellent photographic register of all his cases, which is the main source to teach and spread his clinical experience.
